## SHORT DESCRIPTION

Medical Doctor (M.D.) degree is granted upon completion of the course. The degree is accepted in all EU and several other countries around the world.

The language of instruction is English. However, students are required to learn some basic Hungarian in order to be able to communicate with patients from the third year on. During the first two years, the curriculum focuses on theoretical aspects of medicine that lay the foundation of the subsequent medical subjects. The theoretical knowledge is applied in clinics during the 3<sup>rd</sup> year with internal medicine and surgery

along with other theoretical subjects. The remaining clinical subjects are introduced in the 4<sup>th</sup> and 5<sup>th</sup> years.

**Internship:** students are involved in clinical care of patients at the Departments of Internal Medicine, Surgery, Gynecology, Neurology, Psychiatry and Pediatrics during the 6<sup>th</sup>, and final year.

Students in the final year are required to submit their theses. The last academic year is concluded with a comprehensive state examination. Students who have passed all examinations and successfully defended their theses are awarded the M.D. degree.
